Happy Monday Morning, Sir or Madam,

I am losing patience and feeling extremely aggravated, though I am thing King I have a full list of liars posing as lawyers conspiring against Me, as well as at least two of the three Courthouses involved. You can find the complete list here, not including treasonous Judges Hooper and Smith.

Maybe Hooper and Smith can explain to Me why they should not be criminally charged to the fullest extent of the law for such gross abuse of power, threatening claimants before this court in favour of guaranteeing My rights as You are legally and lawfully obliged to do. They have violated and abdicated their Oath, and continue to make an ass of their Self, and these Courts - [all on Stage for all the world to see](#).

The longer You take, the more deliberate the criminal negligence of this Court appears to be. You have some explaining to do. Am I receiving an unusual amount of discriminate Sean, or do You treat all People outside of Your private club (law society of Ontario) like enemies of the state?

Right now I'm trying to determine if this Courthouse is the ***principle Court engaging in fraud with criminal intent*** to have the Court judges use their position to exploit and betray the People when they were Trusted to guarantee the protection of their natural rights.

This is gross, criminal malfeasance, and it is very difficult to believe that TWO superior Court judges were too incompetent to identify fraud in opposing counsel's material. Am I expected to believe that neither Jaye Hooper or Marc E. Smith know the first thing about service of documents on parties to a proceeding?

Cowards run and hide - tell Hooper and Smith I'd be very happy to have a public meeting with them to find out how they managed to get things so incorrect, how they came up with such preposterous and unreasonable decisions. I Wish to believe it's just incompetence and not judges abusing their power because that IS an act of treason, and I don't care if You don't have treason listed as a criminal Act anymore, every One knows what it means.

This is pathetic, I require a reply, PLEASE.

Hand of Stephen,
